

## **AMENDMENTS TO THE SPECIFICATION:**

Please insert the following paragraph between the Application title and the section entitled "Background of the Invention" on page 1:

### **CROSS-REFERENCE TO RELATED APPLICATIONS**

This application claims priority under 35 U.S.C. 119(e) to U.S. provisional Patent Application 60/422,759, filed on October 30, 2002 and is a national stage application of International Patent Application No. PCT/US2003/034812 filed on October 30, 2003, which applications are incorporated by reference herein to the extent there is no inconsistency with the present disclosure.

Please replace paragraph 1, page 1 (following the subheading "Field of the Invention") with the following amended paragraph:

This invention relates to a unique communication system that allows multiple mobile and stationary computers to communicate information, and ~~more~~ more specifically oil and gas field information with a remote supervisory control and data acquisition (SCADA) system in a wireless multicast network environment. More specifically it relates to an improved oil and gas field data communication methodology that affects improved oil and gas field operating efficiency.
